Woodlot Management for the Future

Fundy Model Forest, New Brunswick Federation of Woodlot Owners, INFOR, and SNB Wood Co-op are joining forces to present the first annual New Brunswick Woodlot Field Day, for landowners, technicians, managers and others interested in the woodlots.

The day-long family event will take place at Arnold Alward's woodlot in Havelock, N.B., recognized by SNB Wood Co-op as its 2010 woodlot of the year. Some have even described the property as a "dream woodlot". A tour will be given in the morning and in the afternoon. Expect to see silviculture and management demonstrations along the way. In another feature event, Fundy Model Forest will unveil a field guide to identify and assess the potential for commercial development of non-timber forest products on individual woodlots.
